

Do you want to teach food technology 24-25?

This series of workshops will offer a valuable opportunity for non-subject specialist teachers to up-skill themselves, participate in activities to develop skills/knowledge of the food technology curriculum and meet other teachers to share ideas and thoughts about food technology in the classroom.

Participants will gain the knowledge and skills to effectively understand and deliver a successful and relevant food technology curriculum across KS3/KS4.

Participants will learn how to:

- Plan for learning
- Adapt teaching for all
- Teach engaging lessons
- Develop understanding and practice of why and how we teach food
- Develop their knowledge and understanding of the food technology curriculum
- Develop the skills necessary for a safe and engaging food technology classroom
- Develop practical skills through a hands-on approach of focused practical cooking and preparation tasks

Course content and methodology:

- Hands-on practical sessions
- Summary and action planning
- Group discussions and direct teaching
- Opportunities for sharing and reflection
- Demonstrations and theoretical discussions
- Specialist workshop sessions using a range of food and equipment

Intended impact on practice:

- The creation of resources to use in the classroom
- Challenge current practice with the introduction of a broader range of skills
- Greater knowledge and appreciation of food technology skills and techniques
- Enhance planning with further opportunities for increasing pupils' motivation and achievement
- Supplement food technology planning with new creative and innovative idea and opportunities
- Revise planning to address National Curriculum requirements and consideration for progression
- Improved quality of teaching and learning across all aspects of food technology within departments
- Greater teacher confidence in the understanding of the food technology curriculum aims and objectives
- Confidence and enthusiasm for the subject following practical investigations and collaborative networking
- Pupils' achievements will benefit from the improvements to teaching and the greater awareness of their learning needs
